## 50,000 EXPECTED AT WINONA CONFERENCE

Dunkards Making Plans For Biennial Meet—Sessions to Open June 8.

News-Times Special Service: WARSAW, Ind., May 22.—The annual general conference of the Church of the Brethren will be held at Winona lake, June 8 to 16, and committees already are here making arrangements for housing and feeding 50,000 persons. It is believed the attendance may be many thousands more than that number.

The committee on arrangements is making contracts for bread, meat and groceries, as the crowd could not be accommodated at the hotels and restaurants. Every available room at Winona and in private homes in Warsaw is being engaged. Arrangements have been made to publish a daily paper during the conference giving a full report of all proceedings.

The conference meets at Winona lake every three years, and in 1915 nearly 50,000 persons attended. The conference differs from most church conventions in that all members who attend are entitled to take part in the transaction of business, instead of being represented by delegates.

The peculiarity of dress and manner of the Dunkards, a great majority of whom are farmers, makes the big gathering distinctive. The men wear whiskers that never have been cut, and kiss each other when they meet, although this custom no longer is followed rigidly by all the men of the church. The women dress very plainly and wear bonnets instead of hats. The conservatism of the church in all worldliness long delayed the use of automobiles by its members, but sentiment on that point has changed within the last few years.

## HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."—Mrs. E. H. Bean, 325 Joseph avenue, Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pur remedy containing the extractive properties of good old fashioned roots and herbs, meets the needs of woman's system at this critical period of her life. Try it. If there is any symptom in your case which puzzles you, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.—Adv.

## GOOD MELON COUNTRY

Soil at Constantine Found Adapted For the Product.

News-Times Special Service: CONSTANTINE, May 22.—Roland Morrell of Benton Harbor, who has had 43 years' experience in melon culture, has secured 90 acres in the vicinity of Constantine for the growing of canteloupes, and already a gang of men is at work planting seed. Mr. Morrell has raised melons extensively in Texas as well as in other parts of the United States, and during the 43 years that he has been in the business, never has he had a crop fail until last year. But the continued rains of last year and lack of sunshine caused a universal shortage of melons.

In addition to the 90 acres which Mr. Morrell has secured for himself, he has contracts with a number of farmers to raise canteloupes under his supervision. The light soil in this vicinity is said to be particularly well adapted to melon growing.

## PLOW UP SKELETON BARING OLD TRAGEDY

Bones Clear Up Mystery of Murder and Suicide of 75 Years Ago.

News-Times Special Service: JACKSON, May 22.—Human bones, believed to be those of a Detroit man, who murdered his child and then came to Jackson county and killed himself 75 years ago, were unearthed by Frank Benn, a farmer, while plowing in a 15-acre field on the Anson Township farm in Timpkins township.

Sheriff Davis, who took charge of the gruesome relics, is convinced from the story told by an old woman, that the bones are those of a Detroit of early days.

According to her story, the man and his wife and child lived in a log cabin near Detroit. One day, during a fit of rage, he killed the child. He and his wife then came to Jackson and settled in Timpkins township.

Continued brooding over the crime, together with fear that his wife would tell of what he had done, caused the man at last to shoot himself.

The aged woman who furnished the officers with the details of the story says that she was a child at the time of the crime, but that she has often heard her parents tell of the murder and the suicide which followed.

## HUGHES LEADS IN OREGON

PORTLAND, Ore., May 22.—With 60 per cent of the vote cast in last Friday's state-wide primary election counted and with all but four of the 35 counties heard from, it became apparent Sunday that of the nearly 100,000 republican votes cast, Charles E. Hughes received a clear majority over all other presidential candidates of approximately 15,000. His plurality over Sen. Albert B. Cummins will be approximately 25,000, while Sen. Cummins has received more than twice as many votes as former Sen. Theodore E. Burton of Ohio.

The vote received by Col. Roosevelt for the republican nomination was only negligible, although on the progressive ballot he received the vote of that party as its nominee.

## For Catarrhal Deafness and Head Noises

Here in America there is much suffering from catarrh and head noises. American people would do well to consider the method employed by the English to combat this insidious disease. Everyone knows how damp the English climate is and how dampness affects those suffering from catarrh. In England they treat catarrhal deafness and head noises as a constitutional disease and use an internal remedy for it that is really very efficacious.

Sufferers who could scarcely hear a watch tick, tell how they had their hearing restored by this English treatment to such an extent that the tick of a watch was plainly audible seven and eight inches away from either ear.

Therefore, if you know someone who is troubled with catarrh, catarrhal deafness or head noises, cut out this formula and send it to them and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be easily prepared at home for about 75c and is made as follows:

From Wetlock's Cut Rate Medicine Store or any druggist obtain 1 oz. of Furmint (Double strength), about 12c worth. Take this home, and add to it 1-4 pint of hot water, and 4 ounces of granulated sugar, stir until dissolved. Take a tablespoonful four times a day.

Parment is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian Tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear, and the results it gives are usually remarkably quick and effective.

Every person who has catarrh in any form should use this recipe a trial and free themselves from this destructive disease.—Adv.
